

 **TIMECLOCKS**

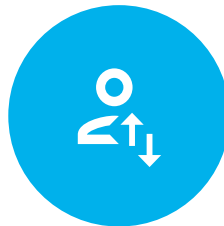

See all staff in your hospital or care home in real time

Once you know someone has been rostered, the next step is to know they are on site. Allocate's TimeClocks makes it easy to get an accurate picture of which staff are on-site at any point of the day, in real time, without having any unnecessary admin.

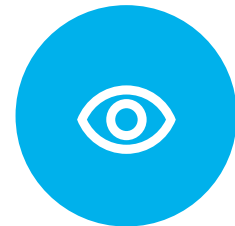

**Paperless time keeping**

Staff electronically record attendance without timesheet burden.

**Improve patient flow**

Live, operational view of all staff highlights areas where underutilised staff can be redeployed.

**Total workforce visibility**

All staff groups are accurately seen in real time, with working hours and locations logged.

**TimeClocks provides accurate payroll with ESR integration.**

**Time recording is made easier and faster as TimeClocks delivers no timesheet burden or incorrect timesheet recording.**

**TimeClocks is fully integrated with HealthRoster and SafeCare**

## Features

- Integrate with multiple manufacturers of physical 'clocking-on' devices.
- Records and validates employees start and finish times.
- Useable by all staff level groups, including Doctors, Nurses, AHP's and more.
- Provides proof of attendance/non-attendance.
- Compares actual start and finish times against roster in HealthRoster.
- Alert and exception reporting where staff clock in or outside of defined tolerances.
- Alerts for non-attendance.
- Assists with validation of Electronic Timesheets.
- Automated finalisation of validated shifts.

## Benefits

- Simple device allows for quick recording of attendance for all staff groups.
- Operational insight provided by unique live operational view of all staff on shift.
- Smooth on-boarding of temporary staff.
- Automated created timesheets speeds up the payroll process.
- Improved security and fraud prevention with validated start and finish times.
- Improved visibility of live staffing levels benefits safety and patient flow.
