

 **MYASSURANCE**

Allowing front line staff to complete inspections quickly and efficiently

MyAssurance is a real time, app-based tool which helps organisations to manage, track and report on current, historic and future inspections. The app provides the organisation with the ability to create and build their own templates allowing a fully customizable experience, saving staff time and laborious administration.

**Streamlined process**

Single app-based tool for staff to use makes managing audits simpler and easier

**One version of the truth**

A single storage location removes duplicates being created and modified

**More time for patients**

A faster process means staff can focus on patients' needs on the front line

Features

- All Audits, Accreditations and Inspections stored in one electronic location
- Features customisable Audit and Inspection templates, as well as library of National Audit Templates
