MedicOnDuty
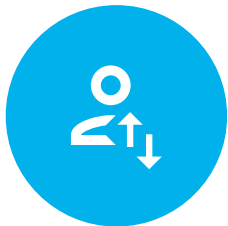

Manage who is working, when and where

MedicOnDuty helps you create both simple and complex rosters, meeting the unique needs of the medical and science workforce. The platform integrates with rotas, job plans and service plans, ensuring patient safety is never compromised.

Identify gaps and redeploy resources

See live information about the availability of key medical staff.

Maintain safe hospital operations

Share live on-call contact information through the switchboard view.

Improve workforce wellbeing

Provide easy-to-use mobile rosters views for your workforce.

Save money and reduce costs

Through the use of auto-rostering against contracted demand templates.

"One of the biggest advantages for us was about enabling our junior doctors to have visibility for their rotas, for their whole rotation."

Alison Smith
Medway NHS Foundation Trust

"By using this app, we can organize ourselves, and if we're organizing ourselves within a clinical team, then we're in a position to do our jobs on a day-to-day basis, that we're needed to do."

Mark Porter
Senior Vascular Registrar
Royal Free Hospital

"The biggest benefit however, has been the ability to proactively fill gaps with substantive or locum staff, rather than having to rely on expensive agency staff."

Ria George
HealthRoster Implementation Lead
University Hospitals Plymouth NHS Trust

Integrates seamlessly with LocumOnDuty and also supports integration with many other contingent solutions.

MedicOnDuty helps to identify gaps in rotas ahead of time and view which members of staff are available to fill those gaps. Also ensure adheres to the Working Time Directive and other contractual regulations.

Benefits

- Improve patient safety through the live overview of staff, including their location and availability.
- Increase staff wellbeing and engagement by providing them with a mobile app empowering them to view their whole team's rosters and request bank and leave.
- Save money by auto-rostering against contracted demand templates.
- Skill match between duty requirements and individuals, guaranteeing that staff are safely deployed.
- Quickly deploy contingent staff resources within medical rosters when necessary when used alongside with LocumOnDuty.
- Sustain contractual integrity through integrating medic rotas and job plans from eRota and eJobPlan.

Features

- Gain a real-time view of the availability and location of key medical staff.
- Share live on-call contact information through the switchboard view.
- Auto-roster against contracted demand templates.
- View rosters from any location via the mobile app.
- Enable a degree of self-rostering through the 'request duty' function whilst ensuring essential cover and fairness are maintained.
- Enables maximum customisation of user roles, working rules and workforce structures.
- Easily request annual leave and bank shifts.
- Reporting function allowing escalation of key workforce issues.
- Integrates seamlessly with eRota and eJobPlan.

Empower substantive medical workforce with the flexibility to control their own schedules.
