

INSIGHTSTART

Workforce Intelligence for rostering transformation

InsightStart offers you access to high level analysis of reports and data, allowing you to be in complete control of your own analysis and reporting. Offering you a clear and accessible way to analyse your rostering performance across 6 key metrics, ensuring you can identify areas for improvement and start making those improvements a reality.

Insight Data Portal

Streamlines workforce data and allows users to monitor areas that are on target and achieving their goals across 6 key metrics.

Quarterly Reporting Service

An expert analyst will provide you with Quarterly Reports of organisational performance in key areas.

Insight Benchmarking

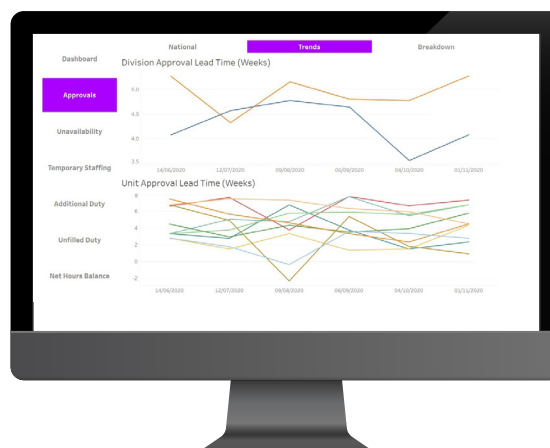

Compare your organisation's rostering performance in key areas against Healthcare organisations locally, or across the country.

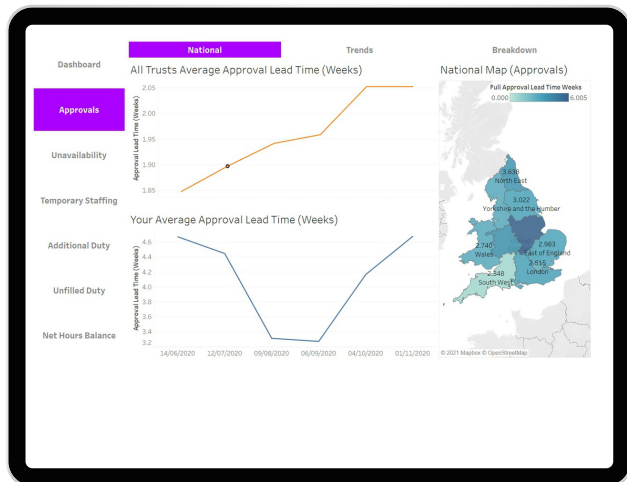

Access to Tableau

Access to an interactive data visualisation software, allowing creation of digestible, professional and customisable data from a dedicated site.

InsightStart gives you everything you need to analyse your organisations performance and drive improvements in the future.

Having worked with Healthcare leaders for almost 3 decades, Allocate Software has gained a unique awareness of the aims and concerns of the industry and the people that support it. This invaluable experience has informed Allocate's understanding and has shaped our software and services, resulting in our unique analysis tool, InsightStart.

Benefits

- Focus on key metrics that effect the daily operations of an organisation, including Temporary Staffing, Roster Approvals, Net Hours Balance, Unavailability, Additional Duties and Unfulfilled Duties.
- Full access to a Tableau server allows you to view and customize your reports and charts, allowing flexibility for reporting to all levels of your organisation.
- Access to benchmarking data for Trusts across the NHS to see how your organisation compares in different areas across key metrics.
- Through our analyst led masterclasses, we will help educate your staff on how to get the most out of reporting and to plan your organisations next steps from analysing past performance.
- Access InsightStart wherever is convenient for you, whether that's on a computer, tablet or mobile.
- Monthly Engagement Reports presented to you by your analyst to report on specific units, providing you with a clear view of development over time.
- Access to quarterly forums with other members, offering you a way to discuss topics and share best practices across organisations.

Features

- **Key Metrics** - Track areas in your organisation across our recommended 6 metrics including:
 - **Temporary Staffing**
View how the management of rosters impacts the levels of supplementary workforce
 - **Roster Approvals and Net Hours Balance**
View how well rosters are planned
 - **Unavailability**
View how different types of absence impact staff levels
 - **Additional Duties and Unfilled Duties**
View where pressures are being felt and where workforce gaps need to be filled
- **Quarterly Engagement Reports** – Your analyst will create quarterly reports on chosen units, allowing you to track development over time.
- **Insight Masterclass** - Insight customers have access to rostering masterclasses to help educate your staff in the science of rostering practice and its benefits.
- **Tableau Server Access** – Access to a professional interactive data visualization platform, allowing for customizable representation of your organisations data and reports.
- **Mobile and Tablet Access** – Access your InsightStart reports wherever is convenient for you, whether that's on a desktop, tablet or mobile.
- **Benchmarking Data** – Access benchmarking data, allowing you to compare yourself in different areas to other organizations nationally.
- **Community of Practice** - As members of the Allocate Insight Community, Users have access to forums where learnings can be shared with other members and topics for discussion can be shaped by the wider group.

Control your own analysis and confidently plan for an efficient, safe service.
