## Appraisal and revalidation software designed for medics.

Assure Appraisal is a system that supports both doctors and appraisers in delivering compliant, efficient, and effective appraisals as required for the revalidation process.

**Reduced Administration**

Eliminate laborious hard copy retrieval.

**Flexible and Agile**

Quickly respond to new requirements as they change.

**Compliance and Visibility**

Offers doctors and Trusts full transparency over their appraisal submissions.

**360 Degree Feedback**

Integrated 360-degree feedback tool for colleagues and patients.

**Save Costs**

With reduced administration.

"We already had the Allocate JobPlan system and were very happy with the support we had received; this played a big part in our decision. From our point of view it's a major benefit that Assure Appraisal shares a portal with solutions for job planning and 360 degree feedback."
**Myrna Coutts**
**Appraisal/Revalidation Administrator**
**Northampton Healthcare NHS Foundation Trust**

"Having seen a number of other appraisal and revalidation solutions during our selection process, we felt that Assure Appraisal was the only system that really gave us confidence and made us feel secure. We felt it was the only system that would properly manage the evolving situation of revalidation, and make handling the paperwork easy to control."

**Helps doctors collect the right information and guides them through the appraisal process to ensure completion**

Assure **Appraisal**

**Learn**Solutions

This paper-light software solution delivers a comprehensive easy-to-follow workflow process that helps both doctors and their trusts manage and monitor the progress of appraisal and revalidation effectively. It enables doctors to seamlessly capture and process their supporting evidence on one portal and provides access to those who need to review it.

### Features

• Unlimited supporting information upload from both electronic and paper sources.
• e-Portfolio structured in accordance with GMC recommendations.
• Mark stored documents as private, allowing you to control access to confidential information.
• Automates the creation of NHS England AOA and Quarterly appraisal progress reporting.
• Automatic workflow email reminders for appraisal deadlines and documentation.
• Electronic sign-off for key appraisal outputs.

### Benefits

• Gain greater control and management over the large quantity of documentation for appraisal.
• Instant access to information.
• Keep a safe, secure electronic store of all appraisal documents for whenever you need it.
• Built and updated around NHS England's MAG model appraisal form.
• Capture and process a variety of paper documents quickly and easily, from any device and any location.
• Integrates with Allocate JobPlan making it easy to handle the necessary requirement of incorporating doctors' job plans into the appraisal and revalidation process.
•

**Assure Appraisal's 'Responsible Officer Dashboard' is built in line with the most up-to-date national guidance. This integrated dashboard delivers an overview of the state of appraisals in their organisation in addition to detailed information about each doctor's revalidation cycle.**

**Integrates seamlessly with Allocate JobPlan**

**Compliant, efficient and effective revalidation solutions for doctors and appraisers.**
