

Allocate Rota

Confidently create Junior Doctor Rota's and exception reports

Allocate Rota offers peace of mind when creating junior doctor rotas, helping to ensure they fulfil service needs whilst meeting contractual and Working Time Regulation requirements. A clear interface and a host of user-friendly features allow you to create a bespoke solution that works for your set of doctors.

Eliminate unexpected costs

Anticipates rule breaches if rota is non-compliant.

Integrated solution

Fully integrated with our electronic rostering solution.

Pay assessment

Accurately calculate pay for all rotas, including mixed grades.

Simple exception reporting

Real time recording and simple mobile interface to ensure quick resolutions to exception reports.

"Allocate Rota is comprehensive, easy to use and helps us build the most effective rotas to meet both our doctors and organizational needs. RLDatix's responsiveness to update the system to meet the 2016 contract changes make me feel we are in safe hands."

Brian Jones

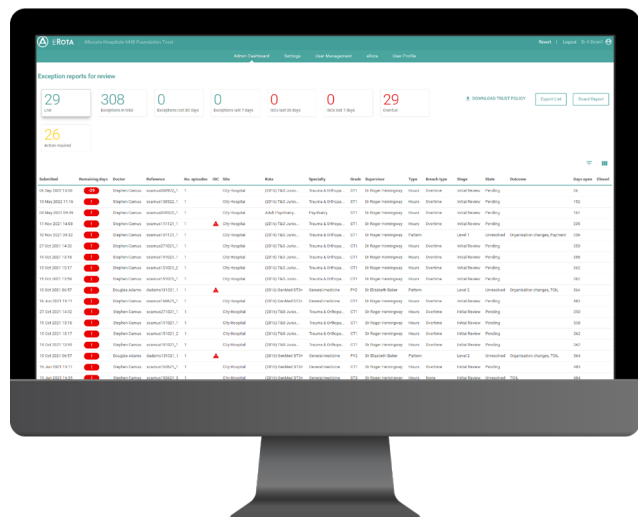

Medical Staffing Lead

Lancashire Care NHS Foundation Trust

Over 150 NHS trusts use Allocate Rota.

Allocate Rota has driven a combined saving of over £40 million for organisations through creation of efficient and compliant rotas.

Allocate Rota contains significant functionality to support the process of exception reporting, for both the doctor and Safety Guardian to ensure prompt resolution or remedial action to ensure safe working hours maintained. With an easy to use dashboard that displays and prioritises recorded exceptions, enabling them to make and communicate exceptions in a timely manner.
