

Allocate

Transport Marketplace

**Driving down the
cost of safer patient
transport**

Saving the NHS considerable amounts on patient transportation

Completely free for the NHS

WHO WE ARE

Allocate Transport Marketplace was founded by individuals with clinical backgrounds and deep, operational knowledge of healthcare transport challenges and requirements.

Allocate Transport Marketplace (ATM) offers better, safer buying of transport. Backed by the NHS, our award-winning solution provides an assured, procured and secure cloud-based online platform.

We support the NHS to access an accredited network of transport providers, from taxis to ambulances and everything in between. Compliance is at the top of our agenda, supporting you with thorough provider credential monitoring and assessment against stringent onboarding checks.

Our comprehensive procurement solution provides a tailored, compliant Dynamic Purchasing System (DPS); provider, document and invoice management.

When you work with us, you receive dedicated support from our large team of Allocate Transport Marketplace experts. We help short and long-term transport requirements whenever you need it. Our highly experienced team helps to improve the management of transport requirements, driving time and cost efficiencies, organisation-wide.

WHAT WE DO

A free online marketplace of approved and competitively priced transport providers.

Allocate Transport Marketplace has been built on years of operational experience in managing the procurement of transport and transport suppliers. Supporting both the buyer and the provider, our online marketplace offers the perfect solution to procuring and delivering regulated transport services.

The Platform simply enables buyers to safely manage the whole transport purchase delivery cycle. We manage a large, compliant pool of transport providers

servicing health and social care transport.

We're driven by technology and thrive on developing software to digitally transform the passenger experience. However, we also understand the key role that people play in the procurement process, which is why we use a combined approach of great people and advanced technology to provide you with the best possible service and support.

Access a pre-approved network of safe and cost-effective providers in as little as one day.

WHY OUR CLIENTS TRUST US

Access a pre-approved network of safe and cost-effective providers in a little as one day.

“It’s going to help us implement a completely new way of working. At the moment, with the transport distribution service, we’re using it to replicate the way we’ve been working for quite some time. That’s going to help us to understand where we’re putting our effort, where we’ve got time-wasting, and then we can start improving our service”.

Lindsey Farquhar,
Facilities Manager

Free digital procurement platform

Free and secure cloud-based platform, with a fully auditable digital process to support invoice validation.

Competitive transportation prices

Fully compliant and competitive purchasing of patient transport, where providers are price-ranked based on bidding outcomes.

Gain assurance on patient safety

Access to an accredited network of transport providers who have been vetted against the appropriate compliance regulations and regularly monitored for reliability.

Access a wide variety of responsive providers

From individual journeys to block bookings, unlock greater transportation planning and improve demand forecasting through assisted reporting.

132,000

Shifts filled in the last year

200

UK Transport Providers

14,000

Last minute journeys booked in the last year

SAFER PROCUREMENT

We offer you complete assurance that when using Allocate Transport Marketplace, your patients are safe and will only be transported by approved providers.

Our providers undergo stringent onboarding checks and must meet strict compliance requirements before they are eligible for patient transport. This approach means we put the safety of patients first every time, and we do this without compromising their transport experience.

Our Transport Procurement Solution can improve the patient experience and support transport staff.

365 Assure On-boarding Process

Initial provider checks occur during the 365 Assure on-boarding process. This process requires providers to evidence they have the appropriate documentation: such as insurance certificates, DBS checks, policies, and procedures.

Once the required information has been shared with us this is reviewed, approved accordingly, and saved into Allocate Transport Marketplace. Only providers who meet all requirements will be accepted onto the platform.

Continued Safety

Our approach to safety is a continual one. We have a full and comprehensive module within Allocate Transport Marketplace that is specifically designed to reduce the manual task of managing compliance information and allows us, and our providers, the ability to track important documents with ease.

All documents saved within the platform are marked with an expiration date and reminders are proactively issued to providers to ensure that all safety documents remain active.

Providers who fail to maintain documents will be suspended from Allocate Transport Marketplace and can ultimately be removed from the platform.

WORKING WITH US IS EASY

24/7 MENTAL HEALTH BOOKING

We understand that booking mental health-specific transport can be challenging and time-consuming. That's why we offer 24/7 support, finding you the most cost-effective and compliant providers with the fastest ETA. Our number one priority is getting your patient moved safely and securely, as quickly as possible.

SECURE VEHICLES
SPECIALLY TRAINED PROVIDERS
EXPERIENCED DRIVERS AND CREW
THOROUGH NEED ASSESSMENTS
HIGHLY RESPONSIVE SERVICE, 24/7

TAXI AND AMBULANCE MANAGEMENT

Working together with NHS organisations, we understand that taxi and ambulance services play an essential role in patient transport. With that in mind, we strive to offer solutions that improve the procurement process and help NHS organisations to manage costs and effectively forecast.

PROVIDERS PRICE-RANKED FOLLOWING COMPETITION OUTCOMES
PRE-AGREED PRICING BEFORE JOURNEYS ARE BOOKED
LARGE POOL OF FULLY COMPLIANT SUPPLIERS
MONITORED FOR COMPLIANCE AND RELIABILITY

AD-HOC & BLOCK

We have a live platform filled with highly compliant providers ready to support your ad-hoc needs. All prices are organised to book one-off journeys without impacting their own fleet.

Booking full shifts is a cost-effective solution that helps Trusts to identify and manage capacity issues. Shift booking is fully flexible and customisable, enabling organisations to schedule requirements for up to two years, enabling better management of surge demand or resource requirements.

HOW CAN WE SUPPORT YOU?

Patient care and experience is at the heart of what we do, so you can be assured that our priority will always be to get your patient moved from one place to another, with the safest and most appropriate form of transport, as quickly as possible.

Provider Bidding

Individual journeys to block shift booking
From taxis, ambulances, specialised mental health vehicles and high dependency transport Advance booking for time and cost-saving.

Accreditation Process

365 Assure application process for insurance, policies and procedures.

Booking Flexibility

Transportation requirements submitted through online platform
Providers bid on the transportation request
Results presented and priced-ranked based on best competitive criteria.

IT'S WHAT WE DO...

UK Based Business

Wholly UK based. Understanding UK challenges, supporting our NHS and patients.

Committed To You

Working to keep patients moving, relieving pressure placed on the NHS due to lack of resources.

Best In class Technology

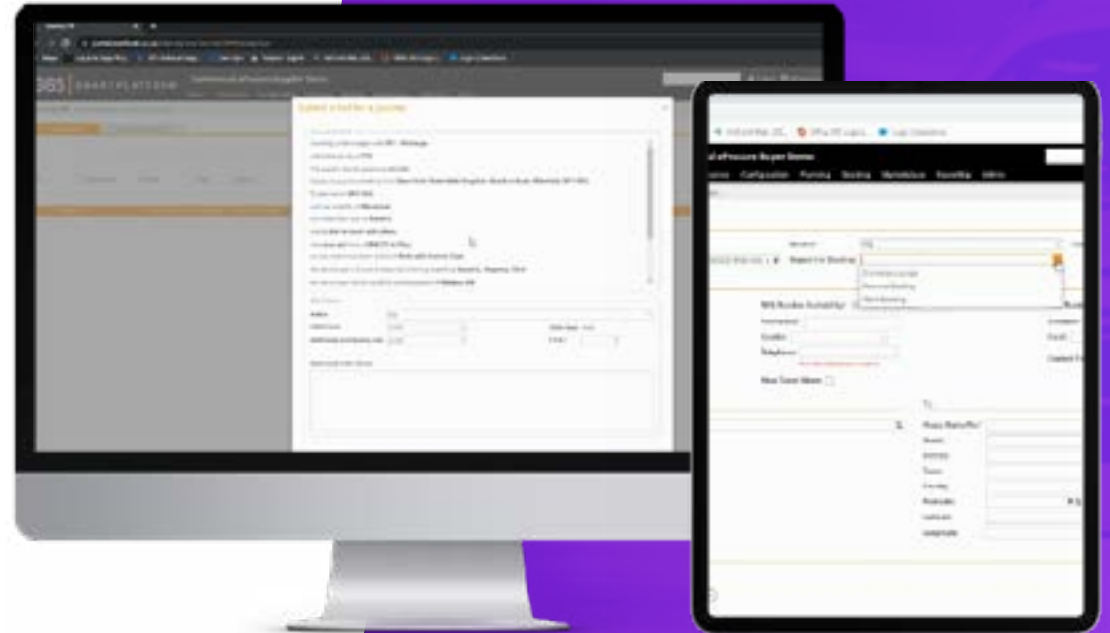

We invest heavily in research, technology and the very best people for the job.

We're Here To Help

Transport is what we do. We're here for booking assistance and advice on improving services, leading to better patient outcomes.

Single Platform

Managing all of your transport requirements in one place. No need for multiple systems.
